Career Objective

As a passionate and enthusiastic front-end developer, I am excited to kick-start my career and contribute to building visually appealing and user-friendly websites. With a strong foundation in HTML, CSS, JavaScript, ReactJS, NodeJS, MySQL and MongoDB. I possess the skills necessary to transform design concepts into functional and responsive web interfaces. I am eager to continue learning and adapting to new technologies and best practices in order to create intuitive and immersive digital experiences.

Skills

Tools & Technologies:	HTML, Cascading Style Sheets (CSS), Bootstrap (Framework), Material-UI, Tailwind CSS, JavaScript, Node.js, Java, React.js, MongoDB, MySQL, GitHub, Microsoft Office, VS Code.
Additional Courses Taken:	Data Structure and Algorithm, Git (LalitPatil1634)
Interpersonal Skills:	Critical Thinking, Active Listening, Writing, Creativity and Innovation, Communication, Problem Solving, Time management, Flexibility.

Experience

MDINDIA Health Insurance TPA | Executive   January 2021 - September 2021

- Acted as SPOC between the client and the Insurance company. Coordinated appointment booking and rescheduling appointments of clients.
- Highlighted issues to the Insurance company on a daily basis. Keep track of completed medical cases.
- Maintained and shared MIS with respective departments
- Supported day-to-day activities. Used Excel and Company Software's to maintain new and existing data.

Internship and Certifications

Newton School | Newton School Coding Boot Camp   January 2022 – June 2023

- Full Stack Web Development along with problem-solving.
- Technical Stack Learnt: React, JavaScript, Node JS, Mongo DB, MySQL, HTML, CSS, Bootstrap, and Data Structure with Java.
- Participated in various coding contests organized by the platform.
- Worked on various projects like Movie Booking App, Adventure Website, and Game.

Humans Softtech | ReactJs Developer   Dec 2022 – Present

- Collaborating with the development team to enhance and maintain web applications.
- Implementing new features using the ReactJs and ensured the scalability of existing code.
- Participating in code reviews, bug fixing, and troubleshooting.

Projects

E-commerce App | Newton School (link)   Dec 2023 –Jan 2023

- Description: A full-stack E-commerce web application using MongoDB, Express, React, and Node.js.
- Features: Responsive and dynamic user interface with React, Created a robust back-end API with Express and Node.js to handle data processing, user authentication. Added Cart, Category, Search, Checkout, Filter by category and price functionality.
- Tech Stack: ReactJS, NodeJS, Express.JS, Bootstrap, MongoDB.

Expense Management System | Newton School (link)   Nov 2023 –Dec 2023

- Description: This an expense tracker is a platform where we will list all our income and expenditures from various sources like salary, food, travel, medical, education, etc. to make an analysis of our money. So we can have an idea of where we are spending our amount.
- Features: User can Register, Login, Add, Update, Delete and Analyse the data.
- Tech Stack: HTML, CSS, Ant Design, React, Node.JS, Express.JS, MongoDB.

Co-Curricular Activities

• Participated in various coding contests organized by the Newton School, Coding Ninjas, GeeksforGeeks, HackerRank.

Education

Bachelor of Computer Application,
North Maharashtra University, Jalgaon
Graduation Year: 2019
CGPA: 4.7/7.0
